Education

University School of Information, Communication & Technology (USICT), GGSIPU Delhi, India
Bachelor of Technology in Information Technology Aug 2024 – Jul 2028
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Computer Networks, DBMS

Technical Skills

Languages: C, C++, Java, Python, HTML, CSS, JavaScript

Concepts: Data Structures & Algorithms, Object-Oriented Programming, Web Fundamentals

Tools: Git, GitHub, VS Code

Experience

Technical Team Member

Oct 2025 – Present

IEEE – GGSIPU Student Branch

Delhi, India

Contribute to technical initiatives and events organized by the IEEE GGSIPU student chapter, collaborating with a team of student engineers on project execution and delivery.

Support technical planning and execution for IEEE-affiliated workshops and outreach activities.

Projects

WanderLust-AI

Tech Stack: Node.js, Express.js, MongoDB, EJS, JavaScript, Bootstrap, Passport.js, Cloudinary, Mapbox, AI APIs

[\[GitHub\]](#) [\[Live Demo\]](#)

- Built a full-stack AI-powered travel and accommodation platform enabling users to discover destinations, manage property listings, and generate personalized travel itineraries.
- Developed secure authentication and authorization using Passport.js, implemented complete CRUD operations for listings and reviews, and integrated Cloudinary for image uploads and Mapbox for interactive maps and geolocation.
- Designed and integrated an AI trip planning module that generates structured travel itineraries, allows users to save trips, and seamlessly extends the existing MVC architecture.
- Deployed the application on Render with MongoDB Atlas, following production-ready practices for session management, environment variables, and scalable backend architecture.

Achievements

Finalist, Hack Vriksh – Code. Create. Cultivate (National Hackathon, 2026): Recognized for technical contribution and an innovative, impact-driven solution as part of a competitive national-level hackathon.

Participant, Smart India Hackathon (SIH) 2025: Competed in India's premier national-level hackathon, collaborating in a team to develop a solution for a real-world problem statement.

Finalist, IEEE Hackathon: Reached the finals of an IEEE-organized hackathon, recognized for technical execution and innovative problem-solving.

Certifications

Deloitte Data Analytics Job Simulation – Forage (June 2026): Completed practical, job-simulated tasks in data analysis and forensic technology.
